RUNNING A PANEL SHOP IS COMPLICATED. LET DR SMASH SIMPLIFY IT FOR YOU.

MANAGING A SUCCESSFUL COLLISION REPAIR BUSINESS MEANS BALANCING:

- Quotes
- Job cards
- Protocols
- Insurers
- Productivity
- 3rd party updates
- Customer communication
- Invoicing
- Workshop efficiency
- Parts

Dr Smash brings everything together into one powerful management system designed specifically for the collision repair industry.

WITH DR SMASH YOU CAN:

- Track every job in real time
- Reduce paperwork and duplication
- Improve workshop productivity
- Monitor staff performance
- Manage parts and consumables
- Communicate with customers easily
- Generate powerful business reports
- Integrate with insurance workflows

WHY CHOOSE DR SMASH

Dr Smash is more than software. It is a complete Business Management Solution, built by Industry professionals with **over 40 years of Motor Industry experience.**

Dr Smash has been designed for collision repair businesses, where every workflow is tailored specifically for your business.

Start with the features you need and expand your system as your business grows.

Manage quoting, workshop control, invoicing, reporting, consumables, productivity, and customer communication in one package. No more "Excel Spreadsheets" needed.

CHOOSE YOUR OWNERSHIP OPTION

We offer you two ways in which to acquire the Dr Smash Management System

1. Flexible Monthly Subscription

Rental of the Dr Smash package

- ✓ Always up to date with the latest version
- ✓ Training and support included
- ✓ Hassle-free upgrades at no extra cost

Ideal for businesses who want flexibility and ongoing support.

2. Once-off Purchase – Yours for Life

Make a once-off investment, and the software is yours forever.

- ✓ Own your version for life
- ✓ Training and support are included for the first year.
- ✓ Hassle-free upgrades at no extra cost for the first year.

Perfect if you prefer long-term ownership with peace of mind.

No matter which option you choose, you'll have the tools, training, and support you need to run your workshop more efficiently.

If your business works with insurers, we recommend our business-approved package. It includes all the features required for insurance compliance—including built-in client SMS notifications—ensuring your workflow meets industry standards with ease.

AN EXAMPLE OF THE WORKSHOP CONTROL BOARD

The screenshot shows the 'Workshop Control Monitor' interface. It features a top navigation bar with 'Order By Dept' and 'Refresh View' options. Below this is a filter bar with 'In Mech', 'In This Dept', 'O/S/Contract', 'Booked In', and 'Only O/S/C To Order'. A status bar shows 'No Problems', 'Minor Problems', 'Major Problems', and 'Vehicles in Shop: 27'. The main table has columns for Job, Quote, Ctrl, Customer, Registration, Model, Colour, and various workshop stages. The 'Strip' stage is currently selected. The table lists various jobs with their respective details and status indicators.
