## DR SMASH SOFTWARE OVERVIEW

### WHY CHOOSE DR SMASH?

Dr Smash was written by a John Banfield together with some of the biggest Assessors in the industry at the time. Since then, Dr Smash has been building onto the package and has been growing from strength to strength with every passing day. Dr Smash is always adapting and growing to make its users more profitable by giving them more time to do the things that matter instead of sitting behind a PC trying to just capture your day-to-day paperwork. Dr Smash is user friendly and saves vital information, so duplication of work does not need to happen, saving you time and money.

To sum it up, Dr Smash is your one-stop-shop for all your Motor Vehicle Assessing software requirements. See below our various Software Package Options for more info!

### WHAT CAN DR SMASH DO FOR YOU?

Dr Smash does everything you as an Assessor require in your day-to-day running. It has a multitude of reports that can break down every part of your business into quick and easy to understand data. Customisable Assessment reports, Protocol tracking, Extras control, Auto Generation of Principle Reports or Pay advances. This is just a small list of what you will find in our package. If you require the financials then look at our financial additional module, which will compile your general ledger to balance sheet level and export it to pastel if required. Dr Smash can also keep in contact with your client from our Customer Care SMS module.

In short, Dr Smash does everything you could possibly need it to run the admin of your Motor Vehicle Assessing business. Simple and effective tools for seamless workflow, our variety of packages ensure you've got all you need!

### CUSTOMISE YOUR REPORTS

Every single report in Dr Smash is completely customizable. Do you want your Quotes, Invoices and Jobcards to look completely different to everyone else's? We make that happen every day for our clients.

### SERVICE SELECT

Dr Smash is supported by a team of highly professional staff members that are trained to fix, via TeamViewer, 98% of the Dr Smash-related technical issues that you could possibly encounter. This means no longer waiting for a technician to come out to your premises to get back to work.

This service is available during office hours with emergency support assistance outside office hours, giving you peace of mind.

### SO HOW MUCH IS THIS INVESTMENT IN YOUR FUTURE GOING TO COST?

Costing for all our package variations can be found on page 2.
